Frame Screened

I'm quite certain that my 1947 Scott 47 is a partial (frame) screen version, as the un-screened version is not that common. Notice how "fuzzy" it appears? Once more, my specimen is a 1948 booklet version, and the entire design screen stamp was not issued until 1949.

Photogravure

1943 Scott 98 (S.G. 105) 1/2p myrtle green

Finally, there is a monocolour myrtle green Springbok issued in 1943. This is a coil stamp, usually collected in vertical pairs.

1943 Scott 98 1/2p myrtle green

You might want to examine this example (on the right) and take a look at the pigmentation pattern-"mottled" does not do it justice ;-)

This stamp was produced in either fine screen or coarse screen. This appears to be a coarse screen.

THE PRESIDENT'S MESSAGE:

There will not be a President's message this issue. Virginia DOES want people to start thinking about:
#1. The upcoming picnic (location, date, etc.)
and
#2: The upcoming elections.

Also, signups for Presentations and Cookie Monster!!

We continue with Jim Jackson's South Africa odyssey in this issue (and several more in the future!) Our club continues to grow, as we've added a new member each month so far this year. There was a request for more of the "Club info" cards. I'll get those printed up, hopefully before the next meeting and have them available for those who wish to "snag" new members!

Remember that our Annual Picnic is coming up quickly, so make plans to attend (come to the meetings or watch the Echoes to determine when a date has been set!) Articles are always welcome! (see Requirements below.)

The ECHOES is published six times a year in January, March, May, July, September, and November. *If you do NOT get your ECHOES the first week of the issue month, let me know! I will get another mailed out to you! Remember, email delivery = COLOR!!*

NOTES FROM THE EDITOR

DEADLINE AND SUBMISSION REQUIREMENTS

All submissions of articles, illustrations, letters, etc., by members of the Greater Eugene Stamp Society will be considered. We reserve the right to edit for length and content. Also, any material might be denied publication based on its inflammatory nature, bias, its poor quality, readability, obviously inappropriate subject matter, or the lack of space in the current publication. These deci-

sions are based on the discretion of the editor. All material must arrive typewritten please (!) to the editor either at a scheduled meeting, by mail, or email. Timeliness of submissions and space will determine when they will appear in the Newsletter. Cutoff dates for all submissions will be the 15th of the month prior to the 1st day of the month the issue is to come out. Don't bold, italicize or underline. Do not use cen-

tering. Use a plain background and standard typefaces.

Many thanks for all who send material! We really appreciate it!

**Electronic submissions via
email preferred!**

A Survey of the 1926-1954 English-Afrikaans (continued from page 1)

1 Pence "Jan van Riebeeck's Ship

1926 Scott 24 (S.G. 31) 1p carmine & black,
"Jan van Riebeeck's Ship, Drommedaris", Perf 14½x14; Typographed.

So, what are the characteristics of the 1926 typographed 1p carmine & black stamp? (Many of the same characteristics that are found for the ½p Springbok stamp are found for the 1p. But it bears repeating. ;-)

- * Although the "ship" stamps can be found in many different shades over the years, the color of the 1926 typographed stamp is carmine and black.
 - * The only example that is typographed, all other later issues are printed with photogravure. Important!
 - * Horizontal perf is 14½; all other later issues are horizontal and perf 15. Important!
 - * The "SUIDAFRIKA" stamp is without hyphen. The 1930-45 photogravure examples are also without hyphen, but the 1933-54 photogravure examples are with a hyphen.
 - * The leg of "R" in "AFRICA" or "AFRIKA" ends in a curved line in the typographed stamps, as opposed to a straight line for the photogravure stamps. Important!
- Let's take a closer look...

1926 Scott 24 (S.G. 31) 1p carmine & black

Typographed: Note the leg of the "R" is curved in both stamps.
The "Curved R" sign is present for the 1p typographed.

G.E.S.S. Member Passes Away

Jean Le Roux, passed away in February 2016. Jean collected US, Great Britain, and Canada.

G.E.S.S. member Harry Shepherd, the President of the Coos Bay Stamp Club has established a web site for the Coastal Clubs (Coos Bay and Reedsport). He has added links to some good auction and retail sites. The Oregon Coast Stamp Clubs website can be reached at:

www.Oregoncoaststampclubs.com

The leg of “R” is straight with a square end. Note also the color differences with these two stamps, emphasizing that color can vary for these issues, despite what the catalogue says;-).

1930 Scott 34 (S.G. 43) 1p carmine & black Photogravure;
Note the leg of “R” ends squarely

1930 Scott 34 (S.G. 43) 1p carmine & black, perf 15x14; Photogravure; No hyphen, 1mm space between Posseel—Inkomste

The 1930-45 photogravure issue, also without hyphen, has a number of differences that have already been described. Compared to the 1926 typographed issue, that includes horizontal perf (15 vs. 14½), and the leg of Africa and Afrika “R” (straight vs. curved).

The color for both the 1926 typographed stamp and the 1930 Scott 34 photogravure stamp is “carmine & black”. Now, who are you going to believe: The catalogue, or your lying eyes? ;-o There are actually two types of the 1p found for this no hyphen photogravure issue. (Scott 34,35; S.G. 43, 43d)

And there are two signs that distinguish them.

The first sign is the mm space between Posseel-Inkomste found on the SUIDAFRIKA stamp. Let’s take a look....

There is a 1 mm space between Posseel-Inkomste found on the SUIDAFRIKA Scott 34 (S.G.43) stamp. This close spacing is found on the so called “Type 1” stamp in S.G.

There is a 2mm space between Posseel-Inkomste found on the SUIDAFRIKA Scott 34 (S.G.43)stamp. This wide spacing is found on the so called “Type 2” stamp in S.G.

1930 Scott 34 (S.G. 43) 1p Photogravure, No hyphen, 1mm space between Posseel-Inkomste

1932 Scott 35b (S.G. 43d) 1p Photogravure, No hyphen, 2mm space between Posseel-Inkomste

Here is the 1932 Scott 35 (S.G.43d) stamp and the wide (2mm) spacing found on the SUIDAFRIKA stamp specifically.

1932 Scott 35b (S.G.43d) rose & black, 2mm space between Posseel-Inkomste

Note also Scott calls the color “rose & black”, which it appears to be, but we have already seen that color is not necessarily consistent.

I mentioned earlier that there are *two* signs that distinguish Scott 34 & Scott 35.

Let’s look at the second sign....

(Images on right) Left image: Scott 34: close spacing of the horizontal lines. Stanley Gibbons (S.G.43) calls this stamp “Type 1”. The side panel’s horizontal lines are close together in Scott 34 (S.G. 43 Type 1). I count 24+ lines for this section.

Right image: Scott 35: wide spacing of the horizontal lines. Stanley Gibbons (S.G. 43d) calls this stamp “Type 2”. The side panels horizontal lines are wider apart in Scott 35 (S.G.43d). I count 19 lines for this section.
